SCOPE OF WORK

Task Number: 1 **Task Cost:** \$387,690.67

Task Title: Managing Moderate Risk Waste

Task Description:

The RECIPIENT will provide the households and small businesses of Benton County with ways in which they can safely and legally dispose of moderate risk waste. The RECIPIENT will complete the construction of an MRW facility. This construction project will include a facility retrofit design, permitting fees, some site preparation and demolition (although this grant will cover no disposal charges), fencing materials, new electrical and plumbing work, and other retrofitting, construction, and preparation costs. By the end of the first quarter of 2016, the RECIPIENT will have put out for bid site designs, and by the second quarter of 2016, the RECIPIENT will put out for bid the construction contract for the retrofitting and site preparation required to have an open and operational fixed MRW facility. Two contracts (one for design and one for retrofitting/construction) will be put out to bid.

This facility will provide a permanent location for households and small businesses in Benton County to take household hazardous waste. The plan is to have this facility open in the third quarter of 2016, and no later than the fourth quarter of 2016.

Following completion of the MRW facility, the RECIPIENT will survey collection participants to see if the new collection process is comparable to previous collection rates. The RECIPIENT plans on organizing a collection event before the facility opens to alleviate stress on the new facility. RECIPIENT will review their used oil collection program and, if necessary, enter into a new contract with a waste carrier.

The RECIPIENT will use various media (newsprint, social media, and website) and other contact methods to teach residents how to use less toxic materials, how to use dispose of waste properly, and how to take advantage of existing stewardship and waste disposal programs.

The RECIPIENT will educate the public and small businesses about the hazards in the products they use every day and how they can be smarter consumers. The RECIPIENT will do this through a variety of on-line media formats, through contact at collection events, and through cooperation with other groups.

CPG funds will cover training, and dues or fees related to safety or solid waste with prior approval from the Ecology Grant Manager.

Task Goal Statement:

To manage moderate risk waste in a manner that serves the greatest number of households and small quantity generators in the safest, most efficient, and most economical ways possible. To open a permanent collection site for MRW to increase the opportunities for disposal and decrease costs for collection.

Task Expected Outcome:

The primary goal will be the construction of a new MRW facility. Once constructed, collection of household hazardous waste will begin.

Goal diversion rates:

- 20 tons recycled materials
- 200 tons diverted MRW materials

Goal of education and outreach:

- Contact 15,000 residents
- Have 5500 residential participants.
- Contact 300 businesses
- Have 30 business participants
